Drivers who own cars with newer security features such as backup cameras and higher security scores have cheaper insurance. As soon as possible, add a newly purchased used car to an insurance policy. Sometimes used cars are bought by private individuals rather than by dealers, which may require a greater involvement of the buyer in the title transfer process, including car insurance. This extra step leaves some used car owners confused on how to get car insurance for a used car. Part of the equation is the price of the car. Our Best Cars section displays the best cars in each category. How At Pro.KBB.com gives you everything you need to search for a new certified car (CPO) or used, compare cars, find cars for sale and make an informed decision. How to buy insurance for a used car Photo courtesy: kali9/Getty Images Insurance companies will offer quotes and also extend the insurance to a person before that person has a car. Photo courtesy of: sturti/Getty Images The specific requirements of auto insurance for a used car depend on both the state in which the owner of the car resides and whether the car is financed or not. It helps to have a reliable price source on your side. Our values are the result of huge amounts of data, including actual selling transactions and auction prices, which are then analyzed and adjusted for seasonality and market trends. The Blue Book Trade In Range shows thereÂ² that a consumer can expect to receive for their car this week when trading it in a dealer. Each state has its own minimum standard of coverage for liability. An individual can also begin the process of obtaining online coverage from their information in an online application on an insurance company's website. To complete the process of receiving a quote, a potential car buyer may need to enter information about the year, make and model of the car they are purchasing. We update our prices at least weekly to reflect the market and provide resellers and consumers with the most up-to-date prices. Depending on the disposal method, there may actually be more than one Blue Book value for the consumer's car, truck or SUV. The process is as simple as calling a 1-800 number and providing the VIN. We use huge amounts of data, including actual transactions, to adapt to local market conditions and seasonal trends. An official insurance policy must be attached to a specific VIN. We have been the reference source for both consumers and the automotive industry since 1926. Insurance is more of a good thing to have or something that most states require. Kelley Blue Book values reflect local conditions in over 100 different geographical areas and are updated weekly to provide consumers with the most up-to-date information on used car pricing.The question "What is the value of the blue book?" has been part of buying and selling a car for over 90 years. With only two exceptions, most states require all car owners to carry third party liability insurance on every car they own. Car franchises and loan companies want to see proof of insurance before completing the sale of a car. Spend all your savings on a used car just to see that the car destroyed in an accident within the first week of purchase is devastating. You need an oil change, a brake or battery replacement? The Kelley Blue Book Private Party Value reports on a fair price when you sell. car. an individual, instead of making a retailer trade in. There are anomalies to the rule. We have recommended prices for your area.
