Wondershare MobileTrans is a desktop application that helps 50,000,000+ users to transfer data from one phone to another, transfer WhatsApp and other social apps and restore data from cloud backups. Move everything with one click and save your time! For Win 10/8/7/Vista/XP | For Mac OSX 10.8 - 11 Huawei Internet ServicesToolsPEGI 3Phone Clone is a convenient data migration application provided by HUAWEI. You can transfer the contacts, SMS,call logs , notes , recordings , calender , photos,music, videos , documents and applications of your old phones to new Huawei smartphone. PhoneClone has the following features: 1. full data, no traffic, simple operation, super fast speed, free and secure; 2. support from Android, iOS migrate data to HUAWEI mobile phone; 3. provide more perfect support for HUAWEI mobile phone, without root to transmit more data (application data, schedule, memo, alarm, The reader bookmark, etc.). 4.support Android 4.4 and above systems. {{ pageTranslation.contentProblem }} {{ pageTranslation.yes }} {{ pageTranslation.no }} {{ pageTranslation.tanksFeedback }} {{ pageTranslation.contentProblem }} {{ pageTranslation.yes }} {{ pageTranslation.no }} {{ pageTranslation.tanksFeedback }} Wondershare MobileTrans is a tool that lets you transfer all content from a particular phone to another phone, irrespective of the model or platform.Transfer All ContentWondershare MobileTrans lets you transfer text messages, images, videos, etc. between phones. This is a feature you would need if you switch phones regularly and want all the old smartphone content to show up on your new device. It's usually not that difficult to sync contacts between Android phones (thanks to Google), and importing old iPhone data through iTunes. But things get a lot trickier when you want everything from the old phone imported. MobileTrans lets you transfer content between iOS, Android, Windows Mobile and also less popular mobile platforms such as Symbian and Blackberry. To get started, you would only need a Mac or PC as an intermediary and the destination and source phones connected.Simple and Engaging UIThe user interface of Wondershare MobileTrans is similar to other Wondershare software. The interface is fairly clean, with the home screen having four big buttons. These buttons have their own purpose and functionality. At the top, there is a toolbar that presents options for online help, account information, etc. The four aforementioned buttons individually facilitate phone-to-phone transfer, backup restorations, phone backups, and old phone content erasure. Backups can be restored from iTunes, Blackberry 7/10, Kies and OneDrive to your phone. The tool is fully compatible with Android 8.0 and iOS 11.If you think that getting stuff from your old mobile to your new mobile is difficult, think again. Cellular companies tend to only transfer contacts between phones and leave out the call logs, music, text messages, pictures, apps and the videos. Wondershare MobileTrans is a piece of software that will do all that for you.Transfer more than just contacts: Copy over your text messages, apps, photos, call logs and music between all your devices with a single click.Transfer to multiple devices: Transfer any data you want shared between different devices such as Android, iOS and Symbian.Transfers everythingand not just contactsCross-platform compatibilityTransfer speed could be slow at timesLimited sharing functionality on iPhones iOS/iPadOS to iOS/iPadOS Android to Android Apart from 1:1 clone, PhoneTrans can also merge data of two phones, which means content from both phones will be well organized on your desired one without data overwriting. So, even if your new phone is already in use, you can still make migration without losing any data. Or, if you need to merge data from multiple devices to your daily used one, it's a few clicks away. More intelligently, PhoneTrans skips duplicates automatically on the fly. Note: Content merge is only for iPhone/iPad to iPhone/iPad migration or migration between Android devices. Cross-system transfer is not available. Learn more about merging content without data loss Software used by millions of users for phone content management, data transfer and investigation Popular 3-in-1 mobile application that helps you transfer your contacts and messages from other phones, backs up your content locally or to the cloud, and lets you manage your phone on a PC via Wi-Fi.
