Free lucky day lotto ticket

WOODRIDGE, IL — The Illinois Lottery announced Thursday that a winning Lucky Day Lotto ticket was purchased at Woodridge Gas & Oil, 1940 75th Street. The winning ticket was drawn on Aug. 20 and the winning amount was \$450,200, according to a news release from the Illinois Lottery. Two other jackpots and major prize winners from this past week include \$350,000 won in a Sunday Lucky Day Lotto drawing, and \$2 million won Friday — the largest prize won last week — according to the news release. The Illinois Lottery reported that the winning ticket in the \$350,000 drawing was purchased at Bucky's Express in Morton Grove, and the \$2 million was purchased on the Illinois Lottery website.Don't miss updates about precautions in the Woodridge area as they are announced. Sign up for Patch news alerts and newsletters.According to the news release, the Illinois Lottery created over 490,000 more winners last week, with prizes totaling more than \$11 million. These winners span the entire state of Illinois and include prizes won from all Illinois Lottery jackpot games, the news release stated.Illinois Lottery players must be at least 18 years old. Make sure your replies stay on topic. Review the Patch Community Guidelines.Reply to this articleReplySee more local newsOnline lottery ticket sales are only permitted in a handful of states. Luckily, the Illinois online lottery is available within state lines. Illinois residents over the age of 18 can buy lottery tickets through the Illinois Lottery website. The games include Powerball, Mega Millions, LuckyDay Lotto, Lotto with Extra Shot, Pick 3, and Pick 4. No instant wins or scratch-offs are available online. You must be physically located in the state to make a purchase. That means you'll need to allow location services whether you use the website or the app. This can be turned on and off at any time. The Illinois Lottery app is available for both iOS and Android. But whether you play the website or app, the same games are available. The Illinois Online Lottery LotteryIllinois State Lottery Launch2012 Bonus OffersNo Deposit Bonus Where To PlayWebsite, iOS app, Android app What Types Of Bonuses Are Available For Online Lottery In Illinois? Unfortunately, Illinois does not have any new player or first deposit bonuses when purchasing lottery tickets online. What you deposit into your account is exactly how much you'll have to spend. However, Illinois does have some promotions on a regular basis. They almost always have a second chance promotion. At the time of writing this article, you could scan a losing \$5 ticket for a prize-drawing entry for a trip to Los Angeles. Other rotating promotions include free tickets and wallet credits. Is Online Lottery Legal In Illinois? Yes, it is legal to play the Illinois Online Lottery through the official website or app. When the Illinois Lottery first launched an online platform in March of 2012, the terms were different than they are today. For starters, the only two games were the Lotto and Mega Millions. They did end up adding additional games, but everything else required a subscription to purchase. Rather than simply purchasing a single ticket, you had to commit to a specific number of drawings for a minimum amount of time for Powerball, LuckyDay, Pick 3, and Pick 4. But House Bill 3661 passed in August of 2019 that allowed single-ticket sales on those games on top of Mega Millions and the Lotto. For now, no instant win games are available at the Illinois Online Lottery. But you can learn more about new and existing scratch-offs and find the nearest retailer. What Types Of Lottery Games Are Available Online In Illinois? Powerball Powerball is a multi-state lottery game with a drawing held every Wednesday and Saturday at 9:59 PM CST. To play, you can either manually select five numbers between one and 69 or do Quick Pick for randomly generated numbers. You then select the Powerball number between one and 26. For an extra dollar, you can also do the Power Play, which can multiply your non-jackpot prize by up to 10x. But if you match the initial five numbers and get the Power Play number, you win \$2 million as the standard. You can do the above steps up to 25 times per each biweekly draw. The largest ever lottery win was a Power Ball ticket worth \$1.586 billion. Use our Powerball Lottery Number Generator to find your lucky numbers. Mega Millions Mega Millions is extremely similar to the Powerball. You select five numbers between one and 70, or have them randomly generated using the Quick Pick option. You then select the Mega Ball number between one and 25. However, there is a somewhat significant difference with the multiplier. For an extra \$1.00, the Megaplier gives you the chance to multiply your non-jackpot by 2x, 3x, 4x, or 5x. There is no limit to the win or a standard payout. The biggest lottery prize in Illinois history was from a Mega Millions ticket worth \$393 million. Check out our Mega Millions Lottery Number Generator to choose your lucky numbers. Lotto With Extra Shot For just one dollar, you can play the Illinois-only Lotto at the Illinois Online Lottery. For half the price of a Mega Millions or Powerball ticket (and a relatively significant difference in odds), you can win up to \$2 million. To play, select six numbers between one and 52 or do a Quick Pick. You can also opt-in for the randomly generated Extra Shot number. To win the Lotto, you need to match two or more numbers. But matching ust the Extra Shot gets you a prize too, and adds a multiplier to any regular win (up to the maximum prize of \$2 million). LuckyDay Lotto If you're looking for the highest likelihood of winning a jackpot game, LuckyDay Lotto is for you. For one dollar, you can do Quick Pick or select five numbers between one and 45. That's all there is to it. If two numbers match, you win, and drawings occur twice per day. Pick 3 and Pick 4 Pick 3 and Pick 4 are technically two different games, but they're played the same. Both also have drawings twice per day, and ticket prices start at just \$0.50. Interestingly, you choose the type of game you play. The harder the game, the higher the prize. For example, you can choose to have all three of your numbers match in order, or you can have them be in any order. You can also choose the Fireball for double the ticket prize and an extra number play. Use our Online Lottery Number Generator to choose numbers for Pick 3 and Pick 4 lottery in Illinois. How Can I Purchase Online Lottery Tickets In Illinois? You can purchase online lottery tickets in Illinois by creating an account on the Illinois Lottery website or through the app. If you're planning to use the Android app, you'll need to visit the Illinois Lottery site on your Android to download the Android app. The one listed in the Google Play store is just for ticket scanning and number drawings. However, the full app is available in the Apple App Store for iOS devices. To register, you need to provide your name, date of birth, address, and social security number. You must be an Illinois resident and over the age of 18 to participate. Once you create a login, you need to deposit at least \$10 into your account. You can do so using the following debit or credit cards: Select the game you want to play, pick your numbers or do Quick Pick, then choose whether you want one ticket, multiple tickets, or a subscription. Once you make the purchase, you'll be given a digital ticket. Does Illinois Lottery Offer Online Lottery Ticket Subscriptions? Yes. While you can purchase single tickets for all the games available through the Illinois Online Lottery as of August 2019, you can still do a subscription. The subscription range can be based on number of drawings or number of months. The shortest subscription is two drawings. The longest is six months. If you choose the subscription method, you'll receive a lottery ticket based on your favorite numbers or Quick Pick. But you won't be charged directly to your credit or debit card. Instead, you'll have to have money loaded into the wallet in your account, and money is taken from there. If you run out of money before your subscription ends, you'll receive a notification per your settings. You can then simply upload more money to your account and still play the next drawing as long as the ticket is purchased at least 90 minutes beforehand. Can You Play Powerball Or Mega Millions In Illinois? Yes. Powerball and Mega Millions are offered through the Illinois Lottery app or website as part of the multi-state lottery's operation. You have the same chance of winning either game whether you buy the ticket online or in stores. The Illinois-only drawings are the other games, which is why the Mega Millions and Powerball have the biggest jackpots as well as the lowest odds of winning. The retail version of the Mega Millions and Powerball requires you to go to the store and select your numbers or choose Quick Pick in-person. However, if you prefer to have a physical ticket versus a digital version, a retailer is the only option. What Does Illinois Do With Funding From The Lottery? The Illinois Lottery is a nonprofit government entity that's built to generate revenue for the state. In fact, the online lottery platform was launched to boost state revenue. Sports betting was also legalized in Illinois for that very reason. Of all the ticket purchases, 64% goes back to players in the form of winnings. That's nearly two thirds of every dollar going directly back to reward people who play. The rest of the revenue is divided up into three categories: Good Causes, Retailer Commissions, and Other Expenses. Good Causes makes up 25%, which is the second biggest category after winnings. Good Causes include public school funding, infrastructure projects, and other community-oriented initiatives. Of course, the retailers and other selling entities get a small cut of the sales and receive 6% of the revenue. Otherwise, there would be no incentive for gas stations and convenience stores to sell lottery tickets. The rest of the money, or 5%, goes to administrative fees and other expenses. Illinois Online Lottery FAQ Get more play in your day with our deals & promotions. But, did you know you can also play the lottery on your smartphone? You probably already knew this and decided to check out the Lucky Day app reviews to see if this is a legit way to make money. This Lucky Day App review will determine if this app is worth your time. Don't download the app until you read this review! What is the Lucky Day App? LuckyDay.com is an app for Android and iOS where you play lottery games for the chance to win cash prizes. The Lucky Day company is a startup founded in 2014 by Joshua Javaheri. Their headquarters is based in California. How Does the Lucky Day App Work? With the Lucky Day app, you play common lotto and casino-type games, including scratch-offs, blackjack, lottery, raffles, etc. It's completely free to play, and you have a chance to win cash prizes. How Much Money Can I Make With Lucky Day App? Lucky Day games are games of chance. Some of the games and potential prizes include: Raffles There are daily and monthly raffles. You get one free raffle entry every day and one raffle ticket per month (you have to log in to the app to claim your raffle entry) and may win up to \$500. Lotto You can play a daily lotto game, where you log in to the app every day and choose six numbers. If you match four or more numbers, you can win a cash prize of up to \$100,000. Scratch tickets The scratch tickets aren't limited to one per day, so most people interact the most with this game. Prizes range from \$1 to as much as \$10,000, according to the terms and conditions, with different amounts for every ticket. If you don't win different games, but they're played the same. Both also have drawings twice per day, and ticket prices start at just \$0.50. Interestingly, you choose the type of game you play. The harder the game, the higher the prize. For example, you can choose to have all three of your numbers match in order, or you can have them be in any order. You can also watch a video ad to continue. This is normal and to be expected in a free app, but there are a lot of them on Lucky Day. People complain that they have to watch 90 seconds of ads to complete one scratch-off ticket, or that they have earned 60 seconds to play a game, but 30 seconds of it is taken up with an ad. Obviously, I use ads to monetize my own site, but there is a fine balance that needs to be achieved. Not Worth Your Time Based on the majority of honest reviews on the Play Store, most people who decide to uninstall this app. These folks have done the math, and it simply isn't worth their time. The average income earned seems to be \$7-\$9 over 4 to 5 months. Fortunately, there are sites like Fusioncash.com that will pay you to do what you already do online anyway, like downloading apps or shopping. You can also make extra money taking surveys at Surveyjunkie.com. So those are all possible alternatives to the Lucky Day App. However, if you're looking for an opportunity to make a consistent part-time or full-time income online, you may want to check out My Best Work At Home Recommendation. Suspicious cash out threshold Most people who rate it negatively say that they quickly won \$7 or \$8, but then abruptly stopped winning and are unable to reach the cash out threshold of \$10. Because this complaint is so consistent across different sites and forums, it's a reason for suspicion. While there are definitely winners of cash prizes, it seems very difficult to earn enough money to cash out of Lucky Day. Is Lucky Day App Legit or a Scam? The Lucky Day app isn't a scam, in the sense that it is free to play and they don't promise you any rewards. However, the rewards are few and far between, and you will need to deal with an excessive number of ads. If you are looking for a free alternative to playing the lottery, it might be the app for you. If you are looking for a consistent source of income, the Lucky Day app is not the best choice. So, with that said, it's always good to explore other options. You can make real money not just gift cards by downloading apps and doing what you already do online like watching videos and playing games at FusionCash.com. You can also make money taking surveys at a site like SurveyJunkie.com. But if that's not what you're looking for and would prefer an opportunity that can help you earn a living online, then you may want to check out My Best Work At Home Recommendation. So, that's my opinion on the Lucky Day app. If you have any thoughts or comments, please leave them down below in the comment section. Until next time Eddy “with a Y”
