In additions, the app will also let you look for large files that are consuming your storage space. You'll have your phone freshly returned to its prime stage.Useful photo analyzer optionIn additions, there is one feature that I'm sure that many of you would find interesting, which is the Photo Analyzer. However, with AVG Cleaner Pro, your cleaning process will be extremely quick and effective.That being said, all the important files will be scanned and rescan all over again to make sure that there is nothing left after you've clean up all files. You don't need to have the phone rooted to use all of its features.DrawbacksThe only thing with AVG Cleaner is that the free version does consist of some ads and junk files, which will not be deleted even when you chose to clean your phone. However, this also causes some inconveniences since you'll have to reinstall the apps once again when you need to use it.Knowing this, the developers of AVG Cleaner has offered the ultimate solution for you. For Android users, it's hard to avoid having trash files on our smartphone, especially when you often have many apps from third-party developers installed on your devices. But that's quite understandable. For those who often use their phone to take pictures, you would probably be flooded with tons of unwanted or duplicated images on your system. Hence, you can easily have them all deleted and free more space on your system.Utilize your smartphone's performanceAnd if you often have lots of apps installed on your devices, then you would certain realize significant dips of performance every once in a while. This can be quite annoying since these large collections of apps will not only take up space in your storage but also slow down your phone by consuming its resources.The simplest solution, in this case, is to have the app completely removed from your system through the cleaning features. This will prevent them from working and consume your phone's resources, just locate the large files on your system using the scan option. In addition, the simple and undemanding features will make the app work perfectly on multiple devices with varied hardware. This helps to increase the total amount of your battery capacity and allows it to work for a longer period of time.Plus, there are also many useful battery profiles that you could choose to enhance its longevity. That being said, users can have all the system info listed inside the app so you can check on them any time you want. This doesn't simply consume your internal storage but also make the phone significantly slower.If this is happening to you then it's naturally that you'll need to delete those files and make space for new installments. That being said, you can easily have the junk files on your system scanned and deleted with just a simple tap. Have all the data and info that you need to know about your phone including its hardware, viabilities, and so on.Have all the system's files managedAnd unlike other cleaner apps, AVG Cleaner offers more features than you would ever want. That being said, the app lets you swipe your phone completely and help you detect all the apps in the system Thus, you'll know exactly the installed, uninstalled apps, and even the APK files that you haven't installed yet.And with just a simple click you can easily have the app removed from your system or restore the uninstalled apps from its previous stages, as long as you haven't deleted the data permanently.Optimize your storage spaceAnd the good thing about AVG Cleaner is that it helps you get rid of all the unwanted files on your system in matters of seconds. Plus, the controls and user interfaces are also quite simple. Thus, making it a lot faster.Improve the battery life on your systemHaving the apps hibernated on your system also has another benefit along with saving system resources and data. Thus, we have a really great app from AVG mobile, the AVG Cleaner Pro which could help you get rid of the residues on your system with just a single tap.Find out more about this amazing app with our reviews.What does it do? Like the other mobile cleaner apps, AVG Cleaner Pro allows gamers to scan all the junk files on your system and then have them deleted in just a simple tap. And this can take up a lot of unnecessary space on your storage.With AVG Cleaner, players can have their photo gallery easily optimized by sorting out all the bad-quality images, blurred ones, and even duplicated images. Thus, making it much easier for you to access the options.There are also tons of cleaning options such as removing the old files, uninstall all the apps even the hidden ones, or large file detection, and so on. And if want to get rid of those too, you can easily install our hacked version of the app.Download AVG Cleaner Pro latest 6.1.1 Android APKAVG Cleaner Pro is undoubtedly an essential app for Android users.
